412-480-4636 | Youngstown, Ohio | brandoncancode@gmail.com | [linkedin.com/in/brandoncancode](https://www.linkedin.com/in/brandoncancode) | github.com/Brando129 | brando129.github.io

TECHNICAL SKILLS

Languages: Python, Javascript, SQL, HTML5, CSS | **Frameworks/Libraries:** Flask, Jinja2, Bootstrap | **Databases:** MySQL | **Tools:** REST API, AWS(EC2), MySQL Workbench, Git, Github

TECHNICAL PROJECTS

Ohana Rideshares | Software Developer | Remote https://github.com/Brando129/ohana_rideshares.git
Ride sharing website using HTML / CSS / Bootstrap / Python / Flask / MySQL / AWS(EC2)

- Combined Bootstrap and CSS to allow for a responsive and aesthetically rich front-end design
- Developed a MySQL schema that met the needs of users by designing tables, columns and relationships
- Constructed back-end validations using Python to verify user input and keep data consistent for CRUD

Game Vault | Software Developer | Remote https://github.com/Brando129/game_vault.git
Game collection application using HTML / CSS / Bootstrap / Python / Javascript / Flask / MySQL / REST API / JSON

- Structured functional and complex HTML documents to render dynamic templates
- Utilized JSON requests to pull dynamic data from a connected API to fabricate back-end routes
- Leveraged Javascript to add on mouse over features for a more interactive user experience

Recipes | Software Developer | Remote <https://github.com/Brando129/recipes.git>
Recipe sharing website using HTML / CSS / Bootstrap / Python / Flask / MySQL / AWS(EC2)

- Designed a wireframe that focused on effortless and enjoyable user interaction as well as functionality
 - Employed Flask framework for fast implementation of additional features via Jinja2 template such as varied logic for authorization and flash messages
 - Deployed project successfully using AWS(EC2) to create a server instance, Gunicorn as a process manager, and Nginx to handle requests made by the server
-

PROFESSIONAL EXPERIENCE

Software Developer | Coding Dojo | Remote Jan 2023–Sep 2023

- Gained experience in how to identify and solve problems using critical thinking and analytical skills
- Communicated effectively with both technical and non-technical audiences
- Collaborated on group projects that required effective problem solving and time management

Foreman | Price Industries Commercial Finishing Company | Carnegie, PA Sep 2015–Apr 2019

- Analyzed and interpreted engineering drawings, including blueprints
 - Developed and maintained business relationships with Project Managers and Superintendents
 - Managed and guided employees on construction sites resulting in added profit yield
-

EDUCATION

Coding Dojo | Full-Stack Developer Certificate | Remote 2023

- Full-Stack Web Development Bootcamp Covering: HTML, CSS, Python, Flask, Javascript, MySQL
